Education

Meerut Institute of Engineering and Technology   **Sep. 2021 – July 2025**
Bachelor of Technology in Computer Science   *Meerut, Uttar Pradesh*

Moon Light Public School   **March. 2020 – March 2021**
Class XII   *Sisauli, Uttar Pradesh*

Sunrise Public School   **March. 2020 – March 2021**
Class X   *Budhana, Uttar Pradesh*

Experience

OpenWeaver   **September 2023 – October 2020**
Artificial Intelligence Intern   *Virtual*
- Developed a website that utilizes machine learning models to generate images based on user-generated prompts or text. The website allows users to input text and receive a generated image based on that input.
- It helps me to learn how to perform exploratory data analysis, communicate results of a machine learning model, implement algorithm production, and review algorithm performance.
- Apply machine learning to combine, transform and model data sets to answer the client's question.

LetsGrowMore   **August 2023 – September 2020**
Web Development Intern   *Virtual*
- Contributed to the development of responsive and user-friendly web pages using HTML, CSS, and JavaScript. Assisted in the implementation of various design features, including animations, and modals, to improve the user experience.
- Conducted thorough testing and debugging to ensure the functionality and performance of web pages on different devices and browsers.
- Developed proficiency in using version control tools such as Git and GitHub for code management and collaboration.
- Collaborated with other developers, designers, and project managers to meet project goals and deadlines.

Projects

Personal Portfolio Website | *HTML, CSS, JavaScript*   **June 2023**
- Designed a personal website for my portfolio using modern web development technologies including HTML, CSS, and JavaScript.
- The website also includes case studies that showcase my expertise and dedication using real-world samples and examples of my work.
- **Live Link:** https://personal-portfolio-nu-flax.vercel.app/

Razorpay Clone | *HTML, Tailwind CSS*   **October 2023**
- Designed and developed a Razorpay clone frontend using HTML and Tailwind CSS. Implemented responsive web design principles to ensure optimal user experience across different devices and screen sizes.
- Created a visually appealing and user-friendly interface that closely resembles the original Razorpay design. Utilized Tailwind CSS utility classes to efficiently style and layout the frontend components.
- Actively participated in design discussions and provided creative input to enhance the overall user experience.
- **Live Link:** https://razor-pay-clone-six.vercel.app/

SignIn UI | *Figma*   **August 2023**
- Using Figma, I created a beautiful sign-in/sign-up page. The page is made to be simple to use and navigate.
- **Live Link:** https://tinyurl.com/mrxdk398

Coding Profiles

- Leetcode
- GeeksForGeeks
- Coding Ninjas

Technical Skills

Languages: C++, Python, C, HTML/CSS, JavaScript, Java
Developer Tools/Technologies: VS Code, AWS, Canva, Git, GitHub
Coursework: Data Structures, Algorithm Analysis, Web Design, Operating System, Compiler Design, AI/ML
